VOLUME CVIII.--NO. 42. ALEXANDRIA, VA., MONDAY EVENING, FEBRUARY 18, 1907. PRICE 2 CENTS.

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence." It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address as above.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

CHURCH TROUBLES.

A dispatch from Paris says that the fate of the Clemenceau cabinet and the definite decision whether the settlement of the church lease question negotiated by Minister of Education Briand shall stand will probably be determined tomorrow. On the morning of that day the cabinet will decide its course, and in the afternoon it will go before parliament and define its position.

It is certain in advance that if M. Briand is beaten in the cabinet tomorrow he not only will retire, but will appeal from the decision of the cabinet to the Chamber of Deputies, and that the issue will be fought out upon the floor in a battle-royal between the premier and his young lieutenant, whose speeches in favor of liberal interpretation of the separation law have been repeatedly ordered placarded through the country. It is a curious fact that while the government is hesitating scores of communes, disregarding the instructions and advices of the government, are concluding contracts between mayors and cures.

Attempts were made again yesterday to interrupt the services of the Independent Catholic Church at the Church of the Holy Apostles in Paris, but they were quickly repressed. A dozen arrests were made. As the congregation was leaving the church some young men belonging to the militant Catholic organization hooted an old veteran. Later Archbishop Vilette, in company with Dr. A. E. Maillon, was insulted by the editor of the Soleil.

Fifteen thousand persons, among them 150 red-shirted Garibaldians, with 120 flags and 20 bands of music, participated yesterday in an anti-clerical demonstration in Rome in favor of France. The procession crossed the city and went to the monument of Giordano Bruno, the Italian philosopher who was burned at the stake by order of the inquisition, where 30 wreaths were disposited. Afterwards the marchers went to the capitol, and, despite their being prohibited doing so, entered the balcony of Michael Angelo, overlooking the hill, and planted the red republican flag, and, amid enthusiastic cheering, republican and socialist deputies delivered violent anti-clerical speeches. The government took energetic measures to avoid trouble. The whole garrison was under arms and all the streets leading to the Vatican were barred by troops. Similar manifestations took place in all the leading Italian towns.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. If safe even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Marquis Adopts Child.

John Cecil Fairfax, a baby boy three months old, with the blood of Thomas, Lord Fairfax, Baron of Cameron, and that of the famous Carroll family of Maryland in his veins, has been adopted by a wealthy French nobleman and his wife, and will shortly be taken to Paris. The child is now in Winchester at the home of Mr. and Mrs. Franck Baker, by whom it has been temporarily adopted. Papers for the child's commitment to the care of the Marquis de Montferriers and his wife, at Paris, were prepared Saturday by Attorney Robert T. Barton, of Winchester, and on February 28 Mrs. Baker will sail from New York for Paris with the baby and a maid. The child's mother, who was the beautiful Elizabeth Carroll, a descendant of Charles Carroll, of Carrollton, the distinguished Marylander, died in giving it birth three months ago in Harford county, Md. The father, William Fairfax, a near relative of the present Lord Fairfax, of England, and member of the Fairfax family, of Virginia, was broken-hearted at the death of his wife, and turned the child over to friends until a suitable home could be found for it. Mr. Fairfax is now in Canada. Thomas Lord Fairfax, the proprietor of the Northern Neck of Virginia, whose ashes are buried beneath Christ Episcopal Church, in Winchester, was his relative. Mrs. Franck Baker is the local agent of the Children's Home Society, and learning through her agent that the Fairfax child was in her care the Marquis de Montferriers arranged to adopt it.

A Father's Cruelty.

Already the father of six girls and hoping that the next arrival would be a boy, James Arthur Hart of Denver, Col., according to his wife, became angered when she gave him another girl, and took it from her when it was three days old and left the child all night in a cold room.

"He took the little thing from me because I was in bed helpless and I could not learn where he placed my baby. All night I was tortured by the fear that it was dead and I, it smother, could not answer its wants or give it comfort.

"The next morning my baby was found on a lounge in another room. She was so cold life had all but left her, and when they brought my little one back to me she was blue all over from having stayed in that cold room all night."

The eldest of the six children is but 15 and the wife claims Hart said before the birth of the seventh that it had better be a boy, for he was tired of girls. He waited and there was no bound for his anger and hatred when his wife delivered him another girl. He began to quarrel and heaped abuse on everybody, the family says, and began wishing the little one was dead.

The Humane Society heard of the case and sent Agent E. A. Ransom to investigate.

The Alaska Packers Association have taken the highest awards at every World's Fair where their goods were shown. At St. Louis World's Fair, the Red Salmon took the grand prize. The only grand prize ever given to Salmon at any World's Fair. The Argo Red Salmon is the best that is packed.

WINE OF CARDUI

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then, being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by E. S. Leadbeater, & Sons, druggists.

Prince William Politics.

Hon. Thos. H. Lion, who has won three successive terms in the Virginia House of Delegates, authorizes the announcement that he will be a candidate to succeed himself.

The contest between him and Mr. Tyson Janney, of Occoquan, is now squarely drawn and the battle for votes has already begun.

And rumor says that every man in office, whose term expires this year, and these, we believe, are the Treasurer, Commonwealth's Attorney and Sheriff, is to have opposition.

If this be true, verily there will be something doing from the mountains to the sea.—[Manassas Journal.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, FEB. 18, 1907.

IN A recent number of the Review of Reviews (London) Mr. Andrew Carnegie sets forth his belief in the justice of a graduated inheritance tax along the lines proposed by President Roosevelt. Mr. Carnegie's argument is that the immense fortunes of the present day have been created by the community; that they represent in a great measure the unearned increment, and that the ends of justice are served rather than violated when a large portion of these overgrown fortunes are turned back into the general channels. Mr. Carnegie should know that but for the tariffs and their offspring, the trusts, there would be no such things as "overgrown fortunes," and that the millions wrung by them from the pockets of the people would remain in the "general channels" and not have to be turned back into such channels in small portions and by slow process through a graduated inheritance tax upon the fortunes of dead millionaires.

A PHYSICIAN who claims to have given a good deal of attention to the subject declares that the use of liquor accounts for most railroad accidents. The corporations are growing more and more rigid in their requirements of temperance on the part of their employes. The Wilkes-Barre and Wyoming Valley Electric Railway threatens to dismiss any man who frequents saloons either on or off duty. The general manager says: "Employes who repair to saloons after working hours and spend 50 cents or a dollar are made incompetent." The general managers of all railroads should entertain the same ideas.

OFFICIAL STATISTICS show that, notwithstanding the enactment of plenary anti-cigarette laws by some state legislatures, the use of cigarettes is continually increasing, the year 1906 being a record year in the industry. The increase in the sale of cigarettes for the last twelve months reached the enormous figures of 851,000,000. There also was an increase in 1906 of nearly 1,000,000 pounds in the import of Turkish tobacco. From Cuba were exported last year 15,643,000 packages of cigarettes, an increase of 4,000,000 over 1905.

ANOTHER terrible railroad accident near New York Saturday night, by which twenty-two persons were killed and about one hundred and fifty more or less injured, has augmented the list of such horrors which have already occurred during the past few months. There is hardly a week in which some serious disaster on the rail is not reported.

MR. J. H. LINDSAY, editor of the Charlottesville Progress, has come out with an editorial endorsement of President Roosevelt, whom he regards as the most available man for the democrats to nominate in 1908. There is nothing new in this. Other democrats (?) have done the same thing, but they are all the same kind of democrats.

THE Russian Cabinet and Czar have approved of an income tax measure, affecting incomes of $500 or over. This will be submitted to the coming Parliament. A similar measure will sooner or later be enacted by all governments.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Feb. 18.

Speaker Cannon is setting up the cigars at the House today. For once he acknowledges the joke is on him. Two hours on Monday, February 25th beginning at 10 o'clock had been set aside for memorial addresses on the life of the late Representative Rixey, of Virginia. The Speaker got his dates confused and concluded the services were today. He arrived at the Capitol at a quarter of ten this morning. His messenger was not present, his page absent, nothing was in its place. The Speaker used some strong language. Promptly at ten o'clock he marched into the legislative chamber with gavel in hand. Not a member was present. He was about to say "the House will be in order" when he demanded of a page the whereabouts of Representative Jones, of Virginia, who had charge of the memorial services. At the risk of his job the page informed the Speaker that the services are next Monday and the Speaker retired in haste to his room.

Congress will have to work over time in order to have the fourteen supply bills ready before the adjournment, two weeks from today. An urgent deficiency bill went through the legislative mill and became a law last December. The postoffice, the general deficiency and the sundry civil bills have yet to pass the House. The agriculture, the military academy, the naval, the pension, the postoffice, the rivers and harbors, the general deficiency and the sundry civil have yet to pass the Senate. The army, the legislative, executive and judicial, District of Columbia, fortifications and the Indian appropriation bills are in conference and will shortly be ready for the presidential signature. The diplomatic and consular have been sent to the White House for approval. It is estimated that the total appropriations of this second session of the 59th Congress will reach $1,020,000,000.

The Census Bureau, in a bulletin issued today, announces that the automobile industry in the United States increased 461.1 per cent between 1900 and 1905. The total value of machines turned out in the former year was $4,748,011; in the latter $26,645,064. The number of automobiles manufactured increased from 8,724 in 1900 to 22,880 in 1905. Michigan turned out the largest number of machines in 1905, while Ohio stood second; Wisconsin, third; Massachusetts, fourth; and New York fifth. These five States reported 85.3 per cent of the total number of machines manufactured in the entire United States.

Republicans of all the railway systems and trafic associations of the country are in session before the Interstate Commerce Commission today, questioning the right of the commission to apply the rules incorporated in their recent circulars for regulation of the filling of freight and passenger traffics.

Representative DeArmond's (Mo.) announcement today that he is out for the minority leadership in the Sixtieth Congress brings to a crisis the fight now being waged against the present leader, John Sharp Williams, of Mississippi. "I am not actively seeking the minority leadership," said Mr. DeArmond, "but I have come to the conclusion that there are enough persons in and out of Congress who believe there should be a change in the minority leadership to justify my permitting my friends to use my name."

Mr. Williams had an opportunity to express his views on the Japanese question during the debate that followed. He said he wanted the Pacific coast to be kept a white man's country. The influx of another race, which he acknowledged was even our superior in certain forms of culture and graces would mean another race conflict, more terrible than the race war in the South as the Japanese are superior to the negro. The responsibility of the republican, he said, could never safely rest on a heterogeneous citizenship.

Mr. Garber, (dem. Ohio), today introduced a bill in the House designed to put out of business fraudulent mining compauies. The bill makes it a penal offense to use the mail or interstate telegraph, telephone or express companies to sell, or to advertise for sale, fraudulent mining stock and to prevent the paying of dividends out of additional stock sold to bolster up such fake mining schemes.

Commenting on the attitude of the people of San Francisco in view of the agreement on the Japanese question here, Senator Flint, of California, today said that the continued agitation on the coast is unfortunate. He visited President Roosevelt today and had a short talk with him. "We are doing all we can to straighten the matter out," said Mr. Flint. "We have adopted the best means to this end that seems available."

William Mapp, private in Company C, 25th inf ntry, was cross-examined today by the Senate military committee in connection with the Brownsville affair. He is the man who, on Friday, testified that at the time of the shooting he heard a voice from outside of the barracks calling, "Come out, all you black ——," and that the following morning Voschelle, the white corral boss, had told him of a plot to kill some of the negro soldiers in a saloon the preceding night. Answering Senator Warner, Mapp made the amazing statement that, during all the discussion among the men and non-commissioned officers as to who did the shooting, he had never mentioned what he had heard. Under cross-examination of Chas. W. Askew it came out that he was one of the twelve men arrested on suspicion of being engaged in the shooting. On cross-examination the witness became very much confused in his statements.

CONGRESSIONAL.

The administration plan to settle the California-Japanese situation was approved by the Senate Saturday evening in the adoption of the conference report on the immigration bill. This report contains a provision which authorizes the President to exclude Japanese laborers from the United States at his discretion. The report will now go to the House for its approval, which, it has been stated, is assured. The day was devoted to the further debate of the questions involved in the report. The opposition presented an alternative plan contained in a resolution of instructions to the conferees, requiring them to bring in a provision positively prohibiting the entrance of Japanese laborers into the United States. Senator Culberson presented this resolution. It was declared not in order, on motion of Mr. Lodge, and an appeal from this ruling of the Vice President was defeated by a vote of 45 to 24, being practically aparty vote. The conference report was then adopted without a roll call.

During the debate on the report a denial was made by Mr. Bacon of printed reports that the opposition of himself and Senator Tillman to the conference report had been withdrawn under presure from Senator Aldrich to save or secure appropriations in the river and harbor bill.

The House considered the postoffice appropriation bill under general debate, speeches being made by Representatives Overstreet, James, Webb, Murdock and Lowden.

At 5 o'clock the House adjourned until noon Saturday for eulogies on the life of the late Representative Hitt.

Daughter Charged with Murder.

New York, Feb. 18.—The theory that the poisoning of wealthy old Mrs. Ida Binge for which her daughter Mrs. Lottie Wallkau is held at the Tombs on the charge of murder, was prompted by a humane desire to relieve the aged woman of her sufferings is gaining weight today.

Mrs. Binge suffered from cancer which was gradually eating her life out. She often begged to be given something that would "relieve her forever." It is said that she repeatedly cried:

"If a dog breaks it leg, you kill it; why won't you extend the same humanity to me?"

The detectives and officers of the District Attorney's office have found no other motive. It is not thought any one had any desire to kill the old woman. Her daughter is wealthy and does not need her mother's fortune. With gathering support, the theory that some member of the household succumbed to the pleadings of Mrs. Binge and placed the bichloride of mercury in her champagne with a purely humanitarian purpose, is being considered by officials.

Mrs. Wallkau was arrested late Saturday night and kept in a police srtion until Sunday, when the coroner's hearing was held. By the coroner, she was committed to the Tombs, where she is held today on the charge of murder in the first degree. She is composed and was accompanied to the prison door by her husband and son.

The work of tearing down the old Long bridge is going ahead slowly on account of the recent cold and stormy weather.

A serious fire broke out in Allegheny, Pa., across the Allegheny river shortly before 11 o'clock last night. The loss will reach over $100,000.

At 1.50 o'clock yesterday morning Gov. Martin F. Ansel signed the anti-dispensary bill, which means the abolishment of state dispensary and prohibition in South Carolina.

Francis J. Carmody, formerly assistant United States attorney for the Southern district of New York, died in Washington, Saturday, as a result of nervous break-down. Mr. Carmody was a son in-law of Senator Platt.

After burning four hours the fire which started early yesterday morning in one of the shops of the South Baltimore Steel Car and Foundry Company, near Baltimore, had gutted the big truck and axle shop, and reduced it to a mass of ashes and twisted iron and steel. The loss will reach $80,000.

Mrs. Lottie Wallau, who was arrested late Saturday night in New York charged by the district attorney with having poisoned her mother, Mrs. Ida Binge, with bichloride of mercury in champagne, was arraigned before Coroner Acritelli in the Criminal Courts building yesterday morning and committed to the Tombs on a charge of murder.

Terrible are the details of a conflagration in the Yuma mine, at the hamlet of Moniter, about two miles from Logan, W. Va., which began Saturday night a few minutes before the men had completed their work. Nine men were seriously and three fatally hurt as the result of a defect in an apparatus by which the bed of coal is given a "shot."

Benjamin White, a retired farmer, of Poolesville, Md., died Saturday night, aged 81 years, of pneumonia. He was known throughout Montgomery county and in Loudoun county, Va. He was a brother of the late Col. Elijah V. White, colonel of the Thirty-fifth Virginia Cavalry, Confederate States army, who died four weeks ago at his home in Leesburg, Va.

A letter from the Rev. E. Lawrence Hunt, who was named as co-respondent in the divorce proceedings instituted in Washington by Charles C. Bassett against his wife Fannie Rice Bassett, was read last evening from the pulpit of the Noble Street Presbyterian Church, Brooklyn, of which Dr. Hunt was the pastor. The pastor asked that his connection with the church be severed.

Mrs. Patrick Daley, of Cleveland, Ohio, has given birth to five children in one year. One boy and a girl, twins, born January 10 of this year, are alive and making lots of noise, though neither of them weighs over three pounds. Triplets came to the Daley home on January 5, 1906. All were boys. One lived a day, another a week and a third three months. Now there are six children in the Daley family, and Mrs. Daley says she would not mind if she had a couple more.

The anti-smoke bill passed the Senate Saturday without objection, but an hour later Senator Kean, of New Jersey, moved to reconsider the vote. The motion was adopted, and had the effect of sending the bill to the calender, from which place it can only be extricated by unanimous consent. The opponents of the measure, who are supposed to represent the railroads involved, were caught off their guard by Senator Hansbrough, of North Dakota, who reported the bill from the District committee.

Fearing punishment because they ventured on brittle ice in the Rock river, at Dixon, Md., contrary to the orders of their parents, William Barge and George Vernon for twenty hours kept secret the death of three companions. The drowned boys are John Hilbert, ten years; Ralph Schafer, nine years, and Lauren Frye, eight years. The boys went through the ice Saturday afternoon. Parents of the drowned boys had the police looking for them all night. Barge who was seen with them, when sharply, questioned, told of the drowning.

Virginia News.

Congressman W. A. Jones, of the First district, will probably be in the race for governor when the next primary is held.

Thomas Alexander Bain, who was prominently known in Portsmouth and Norfolk, and who for many years was the manager of the Reed & Co. cotton warehouse, in Atlantic City, died Saturday night at his home in Norfolk.

"Hill Top," the beautiful suburban home of Barnes Compton, a Maryland capitalist, situated four miles north of the University of Virginia, was totally destroyed by fire about daybreak Saturday morning. Total loss on house and furniture, $15,000. Insurance, $9,500.

The trial of Phil. and James Strother, charged with the killing of William F. Bywaters at Culpeper Courthouse in December, will begin next Thursday before Judge Thomas W. Harrison. It is expected that considerable time will be spent in the effort to get a jury, and it is believed that the chances of getting one in the county are remote.

JAPANESE SCHOOL QUESTION.

With the adoption Saturday evening in the Senate of the conference report upon the immigration bill, the Japanese question has been settled, and fear of strained relations between the two governments have disappeared. The report provides for the exclusion of Japanese laborers from the United States by authorizing the President to refuse to admit them from Hawaii or the Philippine Islands. Japan has agreed to see that none comes direct from Japan. There was absolutely no opposition to the exclusion feature of the measure. The report will probably pass the House and the measure become a law immediately.

The news of Mayor Schmitz's compromise on the Japanese school question with President Roosevelt has thrown the union labor element of San Francisco into a great rage.

The executive committee of the Japanese and Corean Exclusion League will defer action on the matter until specific information has been received as to just what Mayor Schmitz has agreed to in the way of compromise. At a meeting of the executive committee last night the following ambiguous telegram was received from the mayor:

"Amendment to immigration bill only a forerunner of what is to follow. Can not make public full details until later. Have not relinquished any of our rights. Agitation at this time may complicate satisfactory settlement."

Individual labor leaders do not hesitate to express their opinion of the action of Mayor Schmitz and to accuse him of betraying the cause of union labor. One of the most scathing denunciations of the mayor comes from A. Hyneli, secretary of the Exclusion League. Before the executive committee met Saturday night he said:

"If Mayor Schmitz has made any agreement by which Japan children are allowed to attend the same schools as American children, it will be better for him not to come back to San Francisco. Such an agreement would be betraying the trust that the people put in him, and I believe they would stone him in the streets when he returns here."

A dispatch from Tokio says no official step has been taken regarding a solution of the San Francisco school question on the basis of the restricted admission of coolie laborers. Should a solution of the controversy be effected on that basis, it is believed quite generally that the government would be a target for violent attacks by the opposition. The authorities are keenly aware of the gravity of the situation and are apparently prepared to meet the situation calmly and resolutely. Judging from their attitude, a final solution on the basis of restricted immigration might not be entirely hopeless. The Asahi yesterday morning significantly calls attention to article 2 of the existing treaty between Japan and the United States.

TERRIBLE RAILROAD ACCIDENT.

Twenty-two passengers were killed and about 150 were more or less seriously injured, following the wreck of the White Plains and Brewster Express, on the Harlem division of the New York Central and Hudson River Railroad, near Woodlawn road in the Bronx, a borough of Greater New York, Saturday night.

The train jumped the track just above the Bedford Park station. Four cars were hurled down an embankment and turned over and over. The motor and smoker following it also left the rails and plowed along the track. The majority of the passengers were New York business men living at White Plains, Valhalla, Mount Kisco, Chappaqua, and other points along the Harlem division. Many Mount Vernon residents were also on board. The train, which was comfortably filled, carried many women, who had been attending the theaters, and many of them were killed.

One woman was impaled on the broken rail.

The third rail was torn up and protruded through the side of one of the wrecked cars. This car caught fire and burned.

Some of the victims were so badly mangled that they probably will never be identified.

The track near 201st street winds around a sharpe curve. The train sped around the curve apparently without slackening speed and with such force that cards on tables in the smoking car were swept onto the floor.

The entire train, with the exception of the rear car, had cleared the curve when this coach was snapped off the track like a feather. The car turned on its side and went grinding along the outside track on which it had fallen for 200 yards. Then the pull upon the other three wooden coaches became so great that they also left the rails and turned over.

As these four cars were dragged along they were literally ground to pieces, and passengers on them were shaken to death like a rat in the jaws of a terrier. Before the motorman could stop his train the two motor cars also had been pulled off the track, but remained standing, as did the smoker.

The dead and injured were strewn all the way from 201st street, under the Woodlawn road bridge, to 204th street, and then to 207th street, where the train finally came to a stop. For a distance of over 1,000 feet the tracks were strewn with parts of the bodies of the dead. Many of the bodies picked up along this highway of death were so badly ground up and so completely divested of clothing that it is likely to be a long time before some of them are identified.

The four cars were reduced to kindling. Their sides were ripped out, floors ground up, and roofs torn off from collision with an enbankment alongside the track.

The Bailey investigating committee of the Texas legislature will probably finish its work this week. It is stated that from the evidence so far adduced a majority of the committee will make a report to the legislature exonerating Senator Bailey from the charges that were filed against him. A report, it is said, will be made by a minority of the members of the committee finding Mr. Bailey guilty of at least a portion of the charges. The testimony before the committee has up to this time caused very little change in sentiment in the legislature, either for or against Bailey. The lines are more closely drawn and the bitterness more intense between the two factions than when the investigation was started.

The Thaw Trial.

New York, Feb. 18.—Saturday night there was a strong probability that Thaw would make another change in his attorneys. As a result of several conferences, however, it was announced, today, that there would be no change. Delmas will continue to conduct the examination of witnesses and Gleason, Hartridge, and O'Reilly will assist in preparing the case. Lawyer McPike has been told that he will have no official connection with the case. He will merely appear as a private assistant to Delmas. The charge against McPike is that he talked too much.

Juror Bolton was in his place when the court was called to order this morning.

Dr. Brittin D. Evans, who was on the stand when the trial came to its sensational suspension of Thursday, was recalled as the first witness.

Dr. Evans testified that Thaw said: "I never wanted to shoot this man; creature, beast, blackguard. I never wanted to kill him. I had no desire to kill this vile creature, which was devouring the daughters of Americans. It was providence. I wanted him to suffer the humiliation. I went to see Comstock, Jerome and detectives, but got no real aid," witness then told in an impressive way of the "restive eye," the "peculiar nervous twitches," and the "strange stare" the alleged peculiarities of Thaw. Dr. Evans continuing said:

"Thaw launched into an attack on Stanford White telling of the women White had ruined and the harm he had done to the innocent girls in New York, declaring White failed to receive any punishment for his crimes."

"Witness further said that Thaw told him that Stanford White had drugged and seduced a great number of young women, innocent, pure bodied, pure-minded innocent girls in New York." "Now, these people and the lawyers employed by me," Thaw said, "who have been paid are scheming with White's influential friends to keep the matter away from the public." Continuing witness said:

"Thaw had the same wild stare an excited manner on my second visit. "Thaw said 'This man, the dead man; the creature, beast, blackguard, I did not want to shoot him, to kill him, I wanted him to suffer the humiliation of publicity—this vile creature devouring the daughters of America. It was providence—I tried to save him. I went to Comstock, but he only made promises. I went to Jerome, and he said there was nothing in it. The detectives would not give me any aid that I wanted. They were all in a conspiracy to prevent me from making these things public."

"Then he told of White's outrages, and said he used wines and drugs to take away the reason of girls whom he abducted and seduced. He said that White also sometimes used physical force.

Dr. Evans then told of his third examination of Thaw on September 19, when Thaw's conduct was such that he said he formed a deep impression of the defendant's insanity.

Dr. Evans said he considered Thaw's belief in a conspiracy and his belief that the killing of Stanford White was an act of Providence were insane delusions.

Alienist Charles G. Wagner, who was on the stand last week, was then recalled. Previously he had testified only as to acts. Today, he told of his conversation with Thaw, going over much of the ground that had been covered by Dr. Evans.

Dr. Wagner injected one new point in the case, which may be of vital importance as to enabling the jury to determine Thaw's mental condition at the time of the killing. "Mr. Thaw said in his conversation with me" said the witness, "that he had no idea of killing Stanford White up to the very time he shot him. Thaw said his sole purpose had been to get evidence against White to send him to the penitentiary for his offenses against young women.

"Thaw told me," said Dr. Wagner, "that there were three ways White employed in ruining girls. One was to seduce them, another to drug them, and a third to employ physical force."

Delmas subsequently said the defense wished to present Thaw's will, and suggested a recess.

Judge Fitzgerald said he would like to read the will during the recess and Delmas agreed to provide a copy.

Delmas said he would desire to introduce only the eighth clause of the will relating to present the codicil in order to make possible the question asked Dr. Evans and ruled out, regarding the names in it. Jerome said the whole will must be introduced if any. The judge wished to keep out all irrevelant testimony. The eighth clause is supposed to refer to the legacy to Evelyn Thaw, and White's ruination of girls. The adjournment was taken at 12:40 until 2 p.m.

The trial was resumed at 2:08 this afternoon.

Officials Blamed for Accident.

New York, Feb 18.—The prosecution of several high officials of the New York Central Railroad is now regarded as the probable consequence of the Bodford Park wreck of the Brewster express on the Harlem division of the road Saturday night resulting in the death of twenty-two persons and injury of 150 other passengers. Assistant District Attorney Smith, who has been investigating the wreck, is inclined to place the blame direct on the railroad officials. He believes the disaster was due primarily to the fact that the road bed and tracks were not sufficiently strong to stand the additional strain of the heavy electric motors which were drawing the wrecked train at the high rate of speed at which they were driven. If this fact is proved at the inquest, prosecutions of high officials on the charge of homicide will follow. Many of the survivors lay the entire blame on the excessive speed at which the train was traveling, estimated by them at from 70 to 100 miles an hour. They say the company was trying to make a record run between the city and White Plains.

A report reached the Grand Central station this morning that the wreck of the White Plains train Saturday evening in which 22 persons were killed, was due to train wreckers. Some men not railroad employes, were seen on the track near where the wreck took place, shortly before the accident occurred. An investigation will be made of the report.

"Too high speed with light cars around a curve," is believed will be the general conclusion of the coroner's investigation into the New York Central wreck, which begins this afternoon.

Material is being collected for an enormous number of damage suits for amounts ranging from $100,000 down. They will probably aggregate more than $3,000,000.

German Purposes.

New York, Feb. 18.—The Publishers' Press is becoming the confidant of monarchs and statesmen desirous of communicating their thoughts to the world. This is the statement made today by German newspapers on the exclusive interview granted by the German chancellor on Saturday to the Publishers' Press outlining Germany's political intentions. The papers complain that European journals are now compelled to draw their most important political information from America and cite this as a proof of the respect the American press enjoys with European monarchs and premiers.

Berlin, Feb. 18.—Chancellor von Buelow's statement to the Publishers' Press on Saturday, in which he outlined Germany's policy following the recent elections, was printed under large headlines by all the German newspapers yesterday and today having been cabled back to Germany from the United States. The greatest importance is attached to the statement as being a weighty matter which sets Germany straight in the eyes of the word.

Striking comments are being printed about the Publishers' Press which the papers assert deserves the gratitude of Germany for disseminating the truth regarding that nation's intentions and correcting the malicious falsehoods uttered regarding Kaiser William's bellicose purposes.

Comment is also made that following King Leopold's selection of the Publishers' Press, to offer his defense of his policy in the Congo, Prince von Buelow should have chosen the same channel for communicating his ideas to the world.

London, Feb. 18.—London newspapers devote a great deal of attention to the statement of Prince von Buelow proclaiming that Germany's policy following the recent government success in the elections will be one of peace.

Great significance is attached to the interview in connection with the latest announcements for the coming Hague conference. Several journals in their comments question Von Buelow's sincerity in disclaiming warlike intentions, pointing out that Germany is the great obstacle in preventing the discussion of limiting armaments at the peace conference.

Paris, Feb. 18.—Yesterday's French newspapers printed Chancellor Von Buelow's statement at length, crediting it to the Publishers' Press, under large head lines. Most of them emphasize the conciliatory tone of the interview.

The Temps embodied the text in a first-page article entitled "Buelow's Idea," and added the comment that he was never more acute than at present. The Figaro published the article under the head line "Pacific Germany."

A dispatch to the Echo de Paris, on the subject from its correspondent at Berlin says: "It is evident the new majority (in the Reichstag), is not impregnated with aggressive ambitions, but it is doubtful if it woul oppose a policy of adventure, since Germans never oppose anything, but only blame the government afterward if it is unsuccessful. "It is consequently platonic consolation for us."

Another journal, the Petit Parisienne, which did not appreciate the importance of the statement yesterday and failed to print a line of it, atones for the oversight, today, by printing the interview in full

Cleveland's Suicide Commission.

Cleveland, O., Feb. 18.—The avarice of the earth-weary has killed Cleveland's suicide commission. Mayor Johnson created the body to investigate the causes of suicide and, if possible, remove them. Prospective suicides inferred that the commission would be willing to spend a little money to make good. Letters squarely poured in on the members offering to defer or abandon self murder for sums from $5 up. Discouraged by these attempts at graft, the commission has virtually gone out of business. Chairman Cooley will call a meeting to dissolve the body soon.

Reported Recovery of Securities.

New York, Feb. 18.—Practically all the securities taken by Wm F. Walker, former treasurer of the New Britain Savings Bank, have been recovered, according to a statement in Wall street today. It was also said that the absconding treasurer disposed of $200,000 worth of securities before he departed. Brokers who hold the securities are keeping the fact hidden with a view to making good bargains out of them. It is expected that most of the securities will soon be back in the New Britain vaults.

Death of Col Olcott.

New York, Feb. 18.—Col. Henry Steel Olcott, founder of the Theosophical Society, is dead at Adyar, India, as the result of a fall received while on his way to the Orient last October. Col. Olcott was born in this city 75 years ago. He met Mme. Blavatsky in 1874 and a year later they founded the Theosophical Society.

New York Stock Market.

New York, Feb. 18.—The firmness disappeared, on the appearance of inside selling orders in Amalgamated and Anaconda. A general moderate reaction followed on which nearly all the early gains were lost, and in some issuess light net losses were sustained. Government bonds unchanged.

Wants $100,000 for Oyster Beds.

Judge W. N. Portlock, W. G. Avery and R. A. Wainwright are sitting as a board of arbitration in Norfolk to determine how much the Jamestown Exposition Company shall pay in damages to A. Rowland Nash, for the erection of the government piers at the expoaition grounds in Hampton Roads over oyster planting grounds leased by Nash from the State. Nash claims upward of $100,000 damages. Captain Tilton Conklin, testifying for the expoaition company, declared he planted 10,000 bushels of oysters on the same ground twenty-five years ago and did not reap ten cents from his investment. He considers the grounds valueless for oyster purposes today.

SENATE.

The Senate this afternoon passed a bill providing for the allotment and distribution of Indian tribal funds in certain cases. It has already passed the House but in its present shape has been materially amended. It is aimed to give aid to those tribal Indians who are deemed capable of the management of their own affairs.

The reading of a memorial from the North Dakota Legislature for the establishment of a brigade post at Fort Mead was stopped upon objection of Mr. Aldrich, on the ground that it reflected upon the House of Representatives.

Disclaiming any knowledge that the memorial reflected upon Congress Mr. Hansborough had the reading stopped and the memorial withdrawn.

Mr. Morgan, although in a sick bed, is interested in a rubber investigation. He presented to the Senate today, through Mr. Carmack, two resolutions, one directing the bureau of insular affairs to investigate and approximate the rubber product and rubber forests of the Philippine archipelago, and requesting the co-operation of the Philippine government, was agreed to.

The other related to the Congo Free State. It called upon the President to report whether this government had any information as to a rubber concession in the Free State having been granted by King Leopold to an American company.

It was referred to the committee on foreign relations.

When the agricultural bill was called up this afternoon in the Senate Mr. Fulton arraigned the forest bureau as being responsible for greater frauds than any other department of the Government.

HOUSE.

The Japanese question came before the House today immediately after the session was called to order at 11 o'clock.

Representative Bennett (rep., N. Y.), on behalf of the House conferees, secured consideration of the conference report on the immigration bill which was passed Saturday by the Senate.

Democratic Leader Williams caused a delay by causing the full report of the conferees to be read instead of the short statement as Speaker Cannon desired.

After the conferees' report had been read, Mr. Burnett (dem., Ala) made a point of order against the Japanese passport clause and against the section requiring additional accommodations for immigrants on steamers. He said they embodied new legislation.

He said the tacking on of the passport clause was merely giving the President a whip hand and allowing him to hold the "big stick" over a sovereign state.

Mr. Bennett, replied to Mr. Burnett's objection to the passport amendment by saying that from the beginning of the consideration of the immigration bill, contract labor had come up in various amendments and therefore that it was not new matter. A similar argument was made in regard to the air space section. He said that these matters could be brought in because the House had rejected all the Senate bill and passed practically a new bill.

Mr. Williams told the House that undoubtedly the conferees had exceeded their power in bringing in the two sections. He cited precedents to support his views.

Speaker Cannon called to his attention that in those cases money was to be appropriated, but Mr. Williams couldn't see where that made much difference. He said he stood with the State of California on the school question, no matter where the California delegation stood. This he did because the Japanese were not an inferior race, but a different one.

Speaker Cannon interrupted Mr. Williams, declining to allow him to bring in matter not concerning the merits of the points of order. The minority leader said he was merely attempting to show the importance of the legislation, but he refrained from further remarks except strictly on the points of order.

Republican applause greeted the decision of the Speaker. Immediately Mr. Burnett appealed. On a republican motion to table the appeal, the vote stood 196 to 104. This indicates the prospective addition of the Japanese exclusion proposition. An hour was given to debate the bill.

Mr. Watson, republican whip, replied to Mr. Williams who had cited a ruling by the late Speaker Henderson to support his position. He, too, had a string of precedents, which, he said, showed that the report of the conference was proper.

Judge Burnett asked Mr. Watson a hypothetical question about the power of the conferees.

"What's the use of talking about might, could, would or should happen," interrupted Speaker Cannon with a sweep of his hands.

"The chair is prepared to rule." The republicans applauded. The Speaker gave a history of the immigration legislation and then held that the sections in question were in order, as well as the entire report.

The House this evening by a vote of 187 to 101 adopted the conference report on the immigration bill, including the Japanese coolie exclusion amendment.

The War Against Athletic Sports.

Boston, Feb. 18.—To the athletes of Harvard the visit of President Roosevelt on Saturday means something vital. Today they believe that upon the President's decision hangs the fate of Harvard athletes, and that the long expected report of the special committee appointed by the authorities is being held up to await approval. In its present form the report recommends changes of such sweeping nature that the whole undergraduate body seems ready to rise in arms if it is adopted. The committee does not recommend the abolishment of baseball and football, but it recommends that these sports be so surrounded by restrictions that it would practically mean that Harvard could neither afford to carry them on nor could the Harvard athletic heads get the manager of other colleges to send teams to Harvard. President Eliot's great thrust at intercollegiate sports has been that the appearance of commercialism has entered into them to an altogether too great an extent. It was the intention first, to consider the report at a meeting to be held this week, but it was finally decided to wait until after the President had had a chance to have his say. Harvard authorities agreed that it would be only a matter of courtesy to allow so distinguished a graduate, and one who has been talked of as Mr. Eliot's successor, an opportunity to discuss the report before it be made public.

The Corporation Commission.

When the State Corporation Commission adjourned shortly before 6 o'clock Saturday evening at the County Court House after hearing evidence since Friday morning in the case of the commuters against the Washington, Arlington and Falls Church Electric Railway Company, it was decided to continue the hearing in Richmond, Saturday, March 2. Such was determined upon at the instance of counsel for the commuters, as the hour was growing late when the examination of Mr. C. R. Hinchman, secretary and treasurer of the road, had been completed by the defense. Attorneys representing the commuters stated that to go into a complete cross-examination of Mr. Hinchman would require fully four or five honrs, and, in view of this fact, asked for the postponement.

Among the witnesses examined were W. S. Hoge, George N. Newel, G. A. Veitch and others. Their testimony was along the lines previously mentioned—cars not properly heated in cold weather; the published schedule does not meet the demands of the patrons of the road and is not maintained; the rates for bo h passenger and freight service are inequitable; increase of fare from East Falls Church to Aqueduct bridge from 7 to 8 cents; fare from Corbett's to the bridge from 5 to 6 cents; failure to provide lights at station.

Mr. M. E. Church, of Falls Church was the first witness called for the road at the afternoon session. Mr. Church, stated that the schedules are excellent and that the rates prevailing are better than those charged on the steam roads. In most instances, Mr. Church asserted, the rates are fairly reasonable. Mr. H. R. Thomas, deputy clerk of the Alexandria county court, stated that he had never seen anything which would lead him to believe the road is unsafe.

The Twenty-second.

Friday next, Washington's birthday, will be observed in this city as usual. The day is a legal holiday, so the banks and public offices will be closed and the schools will give holiday. The programme of the George Washington Birthday Association was published on Saturday. As heretofore stated, the observance will begin at ten o'clock in the morning, when a committee of that association will go to Mount Vernon and place a wreath on the tomb of Washington. At eleven o'clock services will be held at Christ Church. Bishop Gibson, of the Episcopal diocese of Virginia, will deliver the address, and the collection will be for the benefit of Pohick Church, in Fairfax county. The services will be under the auspices of the ladies of the D. A. R. At 1 o'clock a band concert will be held at the corner of Washington and Cameron streets. At 2:30 o'clock the biennial banquet will be held at McBurney's Hall.

On Friday night Alexandria-Washington Lodge of Masons will hold their annual banquet. All Masons in Alexandria are expected to attend. Those living out of the city will be admitted by card only, owing to the limited capacity of the lodge room. Among the speakers expected are Senator Towne, Senator Flint, Congressman Flood, Judge Duke and others. A representative from Beverly Lodge, of Beverly, Mass., will also be present.

The Columbia Fire Company has made all arraignments for their banquet on the night of the 22d.

A meeting of the Alexandria Athletic Association was held yesterday afternoon. The committee on constitution and by-laws reported and the report was adopted. This organization is rapidly developing one of the strongest basketball teams in this section.

Judicial Aspirants.

A correspondent writing from Fairfax says: Should C. E. Nichol resign as circuit judge to make the congressional canvass, a successor would have to be named by Gov. Swanson at once. The gentlemen spoken of for judicial honors are Mr. James R. Caton, of Alexandria, Mr. J B. T. Thornton, commonwealth's attorney of Prince William county, and Mr. Thomas R. Keith, of the firm of Moore and Keith, Fairfax.

A meeting of the Presbyterian Brotherhood will be held in the lecture room of the Second Presbyterian Church tonight.

Miss Mattie Milton, of San Francisco, is the guest of Miss Ruth Bryant, at her home on north Washington street.

Miss Nannie Jones has gone to Union Mills, Md., to visit her aunt, Mrs. Columbus Shriver.

Mr. William W. West, who was connected with the Washington-Southern Railway Company twenty-three years, during the greater part of which time he was the ticket agent in this city, has resigned and will leave in a few days for New York.

The friends of Mr. Jacob Brill will, it is said, place his name before the Board of Aldermen as a candidate to succeed the late N. P. T. Burke as Alderman from the First ward.

Messrs. H. H. Godfrey, A. L. Lloyd, E. L. Nichols, R. E. Nails and W. B. P. Taylor, clerks of the Washington Southern Railway, were in Richmond Sunday, where they spent a very enjoyable day.

Mrs. Charles M. Bruin has gone to St. Augustine and Palm Beack, Fla., where she will spend several weeks.

Mr. John W. Minton has been appointed chief clerk to the Master Mechanic of the Southern Railway at this city.

The many friends in this city of Capt. James P. Wooddy will be glad to learn that he is rapidly recovering from his recent illness at the residence of his daughter, Mrs. R. C. Loockerman, Baltimore, Md.

Councilman Evans is confined to his home by indisposition.

It is reported that Judge C. E. Nicol, of this judicial circuit, will tender his resignation to the Governor as soon as the present term of the court for Alexandria county ends. He will then enter actively into the canvass for Congress.

Circuit Court for the County.

[Judge C. E. Nicol presiding.]

The February term of the Circuit Court for Alexandria county began today Mr. J. E. Clements, counsel for John Wright, colored, who was sentenced to be hanged for assault, and whose application for a new trial is now pending before the Supreme Court of Appeals of Virginia, make a motion for the immediate trial of Wright upon an indictment charging him with the murder of Jackson Boney, colored, and made a long argument in favor of the motion. The motion was opposed by Commonwealth's Attorney Mackey and was denied by the court, when the case was continued till the next term. The docket was called and cases set. No cases were heard today. A special grand jury returned indictments against several colored men, but none of them was for serious offenses. Court adjourned til tomorrow.

Deaths.

Captain Ephriam Chesser, an old resident of Alexandria, died at his home, 908 King street, last night. The deceased was 65 years old. He leaves a widow and several children. Captain Chesser was a native of Maryland, but removed to this city early in life. He was a well-known river man.

Alarm of Fire.

The alarm of fire between six and seven o'clock this morning was caused by the discovery of a blaze in a stable in the rear of the residence of Mr. Frank Cox, on Cameron street, between Henry and Fayette. The fire was soon extinguished and the damage was slight. At the time the alarm was sounded a slight fire occurrtd at the residence of Mr. Norman Treakle, on south Lee street. It was extinguished before any material damage resulted.

The Weather and the River.

The mercury was at 25° at seven o'clock this morning, and a sheet of ice formed on the channel of the river during the night. This was soon broken up, however, by the passage of steamers, and there is virtually no impediment to navigation by steamers in front of this city. Ice gorges, however, still exist farther down the Potomac and cause trouble to the smaller steam vessels.

THIS IS NOT

one of the contestants in the six days walking match at Madison Square Garden, New York.—This is a woman ironing—that is, she is ironing when she is not running to and from the stove changing irons—but most of her time is spent doing the latter.

Electric Flat Irons eliminate the "walking match."—They heat quickly, and stay hot, and maintain an even temperature all the time—no fire to keep going when the iron is not in use.

Old-Time Plug Tobacco.

In the jury room at the courthouse a few days ago a farmer said as he took a chew of tobacco:

"All the difference in the world in tobacco. I've tried some 20 different kinds and none is as good as that we used to make ourselves down on the farm. We would take a maple log while 'twas green and bore a dozen holes in it with a two-inch auger. They were our molds. We selected our choicest tobacco and soaked it for a week or more in wild honey. Then we'd take a leaf to the log, get a good hickory 'tamping' stick and go to work

"A little ball of the honey-soaked tobacco would be put in an auger hole and tamped in with a stick and a hammer. We'd pound it in solid. Ball after ball would be rammed in and pounded until the hole became a solid plug. When the hole was nearly full we would pound in a plug, and then the log would be put away to season. As the wood dried the moisture would be drawn from the tobacco. And when it was split the sweetest tobacco ever made was taken from it. We called it 'plug' tobacco, and that's where the name originated."—[Kansas City Star.

Blames it on the Bible

Abram B. Cartridge, very drunk, was picked up by the Waterbury, Ct., police force from the gutter on south Main street Saturday night. In his hand he clasped an open Bible and he spoke to the officers strangely in Scriptural phrases. In court Saturday morning Abram said that study of the Bible had driven him to his fall.

"It is so full of inconsistencies," he declared. "I learn its truths and am uplifted—then I discover that its truths are false and I sink to the depths. How can I deliberately stay in my right mind, judge, when I find that the foundation of salvation is builded on sand, and good liquor, which will make me forget it, is so cheap?" Cartridge went to jail for 30 days.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure contained no opium or narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by E. S. Leadbeater & Sons, druggists.

Piles of people have Piles. Why suffer from piles when you can use DeWitt's Carbolized Witch Hazel Salve and get relief. Nothing else so good. Beware of imitations. See that the name is stamped on each box. Sold by W. F. Creighton & Co., 401 King street.

General Vaughan.

Colonel C. C. Vaughan, of Norfolk, commander of the Seventy-first Regiment, Virginia Volunteers, was in Richmond Saturday elected brigadier general of the Virginia brigade of militia by the field officers of the three Virginia regiments. The election of Colonel Vaughan occurred on the second ballot, the first being merely a test of strength. The election was held in the office of the adjutant general, Colonel Robert Leedy, of the Seventy-second Regiment. Colonel Perry, of the Seventieth, and Lieutenant Colonel Robert E. Craighill, of the Seventieth, were among the other leading candidates. Governor Swanson entertained the visiting officers at a dinner at night.

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet, pleasant, and safe Syrup, called Dr. Shoop's Croup Cure, does the work and does it quickly. Dr. Shoop's Croup Cure for Croup alone, remember. It does not claim to cure a dozen ailments. It's for Croup, that's all. Sold by E. S. Leadbeater & Sons, druggists.

Endorsed by the County.

"The most popular remedy in Otsego county, and the best friend of my family," writes Wm. U. Dietz, editor and publisher of the Otsego Journal, Gilbertsville, N. Y., "is Dr. King's New Discovery. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for Lung and Throat diseases." Guaranteed to never disappoint the taker, by E. S. Leadbeater & Sons, druggists. Price 50c and $1. Trial bottle free.
